

DEMO KIT - Elite

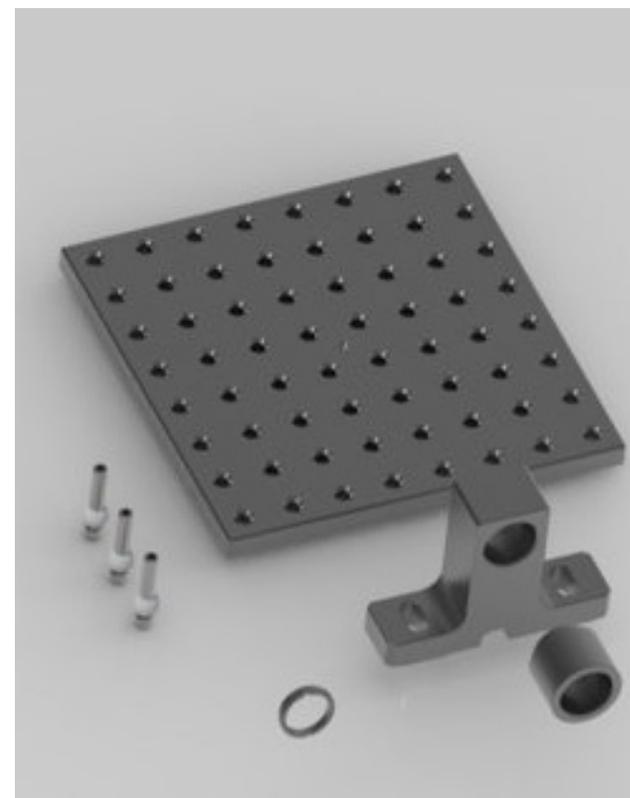

To test lens and tube centering + fix mount positioning accuracy and repeatability.

To test this kit, you will need to provide:

- A lens (diameter 12mm, radius of curvature higher than 11.5mm). To test a smaller radius of curvature, add 1x SRD05 - SPLIT RING D05.
- A Spanner Wrench (Thorlabs PN SPW603 or equivalent).

Note: The reference balls are needed in set of 3. TLBAL1 set are reusable to position all mounts on all our breadboards and can be removed after mount assembly.

QTY	ITEM NUMBER	ITEM NAME	ITEM COST (USD)	TOTAL COST (USD)
1	BB064W100L100	BREADBOARD,6.35MM,100X100MM	\$ 102	\$ 102
3	TLBAL1	REFERENCE BALL, 6.35MM	\$ 141	\$ 423
1	MF381QC05	FIXED MOUNT, QC05 W/ FLANGE, 38.1MM	\$ 86	\$ 86
1	TMF127QC05	TUBE, MALE-FEMALE, QC05, 25.4MM	\$ 63	\$ 63
1	RQC05	THREADED RING QC05	\$ 23	\$ 23
2	n/a	M4x14mm Screw + Washers	\$ 0	\$ 0
1 DEMO KIT - Elite				\$ 697
